MEDICAL DEVICE PAD PRINTING FIRM ADDS NEW HIGH-ACCURACY VISION SYSTEM

HAYWARD, CA DECEMBER 11, 2007: In its ongoing effort to meet the exacting standards of the medical device industry, TouchMark, a leading provider of high quality precision pad printing services, has installed a MicroVu high-accuracy vision system in its Hayward, CA facility. The new system incorporates the latest in Quality Assurance vision inspection technology and guarantees the company's customers that critical markings on their medical devices are precisely validated per the device specification. "In this market, it is critical to provide consistent accuracy - so we are committed to invest in systems and process control that will assure leading edge precision to our customers", says Jeanne Beacham, President.

TouchMark, originally founded in 1992, was purchased by Delphon Industries in 2006. For more than 15 years the company has

~ MORE ~

worked closely with leading medical and electronic customers to provide solutions to their challenging pad printing requirements. TouchMark has developed an expertise with difficult substrates, inks and unique shapes. In addition to pad printing, the company has expanded its offerings over the years to include material procurement and preparation, incoming inspection, cleanroom assembly, as well as post production services. The company is constantly growing its service offering to meet the changing needs of medical device and consumer electronic manufacturers.

About the Parent Company:

TouchMark is a division of Delphon Industries, LLC headquartered in Hayward, California. Delphon's mission is to provide materials and services for the shipping, processing, and packaging of high value technology components.

With the divisions TouchMark, Gel-Pak, Quik-Pak, and UltraTape along with a worldwide sales and distribution network, Delphon Industries serves a wide range of markets including semiconductor, medical, opto-electronics, automotive, and data storage. www.delphon.com.
