TOUCHMARK ENHANCES CATHETER PRINTING CAPABILITIES

HAYWARD, CA APRIL 15, 2009: TouchMark a division of Delphon Industries and industry leader in medical device pad printing, announced today the addition of custom machinery that enhances the company's catheter printing capabilities. TouchMark has added a number of high precision catheter printers that will allow the company to more precisely meet the demands of 360° catheter print jobs.

"TouchMark is known for its expertise in high-precision pad printing on unique surfaces and we are constantly looking for ways to improve our processes, says James Garner, Operations Manager. "These new machines will enable us to achieve even greater efficiency when printing on catheters."

~ MORE ~

Background:

TouchMark, originally founded in 1992, was purchased by Delphon Industries in 2006. For more than 15 years the company has worked closely with leading medical and electronic customers to provide solutions to their pad printing challenges. TouchMark has developed an expertise with difficult substrates, inks and unique shapes. In addition to pad printing, the company has expanded its offerings over the years to include material procurement and preparation, incoming inspection, Cleanroom assembly, as well as post production services. The company is constantly growing its service menu to meet the changing needs of medical device and consumer electronic manufactures.

About the Parent Company:

TouchMark is a division of Delphon Industries, LLC. Delphon's mission is to provide materials and services for the shipping, processing and packaging of high value technology and medical components. Headquartered in Hayward, California, CEO Jeanne Beacham has aggressively positioned Delphon to take advantage of changes within the industries the company serves.

With Divisions TouchMark, Gel-Pak, Quik-Pak and UltraTape along with a worldwide sales and distribution network, Delphon Industries serves a wide range of markets including the Semiconductor, medical device, Opto-electronics, automotive, MEMS, and defense industries. www.delphon.com.
