TOUCHMARK TO EXHIBIT AT BIOMEDEVICE, SAN JOSE, CA

HAYWARD, CA DECEMBER 12, 2016 - TouchMark, a division of Delphon and industry leader in medical device marking will be will be exhibiting at the upcoming BIOMEDevice Tradeshow, one of the world's largest annual MedTech events in San Jose, CA.

TouchMark will be unveiling its expanded medical printing capabilities with the addition of its new inkjet digital printing equipment. TouchMark's medical and electronic device inkjet services offer an efficient, economical solution for multi-color print jobs.

TouchMark uses Medical Grade Inks and is able to work with virtually any substrate including polyurethane, polyethylene, PEBAX, PTFE, PVC, polypropylene, PEEK, and FEP. The company's combination of pad printing, screen printing, injet printing, and surface treatment options make TouchMark the industry leader in Medical Device Marking.

TOUCHMARK TO EXHIBIT AT BIOMEDEVICE 2016

Background:

For more than 25 years the TouchMark has worked closely with leading Medical Device Manufacturers to provide solutions to their pad printing challenges. TouchMark has developed an expertise with difficult substrates, inks and unique shapes. In addition to pad printing, the company has expanded its offerings over the years to include material procurement and preparation, incoming inspection, cleanroom assembly, as well as post production services. The company is constantly growing its service menu to meet the changing needs of Medical Device Manufacturers.
